THE THONG YONG GROUP

Our group began as a marine consumables supplier for tank cleaning and ship chandlery in 1981 with just a 5-men workforce.

Over the years, our group diversified our business into vessel pumping, de-slopping and tank cleaning. With valuable support from our prestigious customers, our employees have acquired professional technical skills and knowledge that enables our workforce to grow in numbers locally as well as overseas.

Today, as we evolve to become a leading marine services provider, we continue to break limits with new visions while remaining focused on the group's goal - to develop into a one stop provider for the regional marine industry with affordable and high quality services to our customers.

Our key business is now in the chartering of vessels, providing logistics support to the offshore dredging industry in the Middle East. Our niche is in providing tugs and large barges for the transportation of armoured rocks for the offshore dredging industry, and our customers include global dredging companies such as Dredging International/MEDCO (worked for SARB, ADMA-OPCO project), Van Oord, National Marine Dredging Company NMDC (worked for ZADCO project) , Atlantic Maritime Group (worked for Mc Dermott in Saudi Aramco Project & Hyundai Heavy Industries), Boskalis, Daewoo, Pertamina, Petronas, and CNOOC SES Indonesia. Our tugs and barges meet the stringent oilfield requirements and our crew adhere to strict ISM and HSE regulations.

Our Mission

Our mission is to be the preferred marine services provider of choice for our customers.

Our Vision

Our vision is to grow into a distinct service provider to the oil and gas industry, and for our valued employees to benefit from this growth through career progression and improved lives.

Our Values

Our values are integrity in all our business dealings, trust in our employees, environmental sustainability and long term relationships with all our partners.

Our Quality Policy

To provide high quality service to our valued customers by answering their needs and continually striving for excellence to exceed their expectations in accordance to ISO 9001:2008 standards.
